Dear Lauren,

Thank you so much for your very generous donation of £3,333.33 to Help for Heroes (H4H). Your donation is needed, welcomed and will be put to very good effect; it will make a real difference to our wounded heroes.

Virtually every penny will be used to provide direct and practical support for those members of the Armed Forces who are injured in the line of duty. You do not have to worry that your funds will finance our costs or sit in a bank account for years. Our Help for Heroes Trading Company profits currently aims cover 98% of all our costs and our ethos is to get money in but then to get it working as fast as we can.

Since we launched H4H in October 2007, we have raised over £1m a month and have already allocated or spent over two thirds of income on the various projects. Our grants have enabled the construction of a much-needed Rehabilitation Centre at Headley Court to begin along with superb extra facilities at Combat Stress. Our funds are supporting Troop Aid Grab Bags for the wounded at hospital and they help the wounded go adventure training as part of their rehabilitation. These and other simple but highly effective initiatives are already in place and are greatly improving their recovery.

Our first recovery centre, The Mark Wright GC House is now up and running and will provide a launch pad to life for all wounded service personnel. Our focus now turns to raising a further £20 million to build recovery centres in the Super Garrisons across the UK.

Yours sincerely

Mark Elliott
Chief of Staff

Thank you so very much for your incredible generosity. This money will make a real difference to the lives of our wounded Heroes. Thank you
